Price Increase (Unforeseen)

Contractor may submit to the District Representative a fully documented request for an emergency price increase only after the Contract has been in effect for 30 days. District, in its sole discretion, shall determine whether it is in District's best interest to grant the request, or continue the Contract to the end of its current term. If the request is granted, the price increase shall take effect thirty (30) days after the District Representative delivers notice to Contractor.

The requested increase shall be limited to a documented cost increase to Contractor that was clearly unpredictable at the time of the Contract award and would impose substantial economic hardship on Contractor. The District Representative may require satisfactory evidence, including a formal announcement and/or published price lists, that a manufacturer or supplier to Contractor has announced a cost increase that contributes directly to Contractor's request for a price increase and would cause substantial economic hardship for Contractor.
